

# Love You Forever

Nicky Romero

Wake up now can you hear me  
Been dying to know what you're feeling  
You've been stuck in the in-between  
It feels like you're trying to reach me  
I know there will be times when the ground gets cold  
When you're lost and you're insecure and there is no road

But I, I would love you forever  
If you fall, then we both fall together  
They'll need an army to take me from you  
And all of their tanks and their bombs wouldn't do  
Cause I, I will love you forever (ohh)  
Forever  
Forever

It's a lose foundation, then sometimes there's no use explainin  
g  
If your faith is shaken, then sometimes it's better to break it  
I know there will be times when the ground gets cold  
When you're lost and you're insecure and there is no road

But I, I would love you forever  
If you fall, then we both fall together  
They'll need an army to take me from you  
And all of their tanks and their bombs wouldn't do  
Cause I, I will love you forever (ohh)  
Forever  
Forever  
Forever  
Forever
