

Kimino Rock

Nicky Wire

The road has taken a lot of the great ones. Hank Williams, Buddy Holly, Otis Reading, Janice, Jimi Hendrix, Elvis. It's a god damn impossible way of Life"

The boys in the band
They don't give a fuck
(The boys in the band The boys in the band)
All they want is some Kimino rock
(The boys in the band)

The men in suits
They just want a geisha
But so what

And all the tourists
They just want forever
To fuck

I want a postcard with my home address on
I want to send it and I want it to reach home
I want to see the things that always give me hope
The cold comfort of the inbetween I know

The boys in the band
Some don't get no sleep
(The boys in the band The boys in the band)
There's no enjoyment in watching meself weep

The boys in the band
They tear themselves apart
(The boys in the band The boys in the band)
Do you know you could die from a broken heart
