

# The Shining Path

Nicky Wire

Felt the shining path  
Creeping up and making plans  
Watch the governments crash  
Hope dead, like Jesus on the cross

Felt the shining path  
Fingers crossed it will be the last  
Felt the shining path  
Fingers crossed it will be the last

And I want you to know  
These feelings I show  
Will fade like summer snow  
For as long as we know

Felt the shining path  
Breaking bones and shaking hands  
I'm dealing with some loss  
How can you cope when it moves so fast

Felt the shining path  
Fingers crossed it will be the last  
Felt the shining path  
Fingers crossed it will be the last

And I want you to know  
And I want you to know  
And I want you to know
