

## Colors

Nicole Atkins

Everywhere I go  
The only things I see  
Are glowing brown and green  
The bottle's gonna kill me

Try to bring the focus back  
You're eyes are my safety  
I hope the blues are gonna rescue me

Colors, everywhere those colors  
Colors, everywhere those colors

Telling me when I should stop

Lately I don't know what good I got  
From what I need or what I want  
Give me a chance or just another shot

Colors, everywhere those colors  
Colors, everywhere those colors

Colors, everywhere those colors  
Colors, everywhere those colors
