

Building Bridges

Nicolette Larson

Since you've gone
My heart said something's wrong
How long can this keep goin' on?
I'm still blue over losing you
What else am I gonna do?

I'm buildin' bridges
Straight to your heart
And all of this distance won't keep us apart
Won't keep us apart
Talk to me
Talk to me about sympathy
Don't leave me begging on my knees

Since you've gone
My heart says something's wrong
How long can this keep goin' on?

I'm building bridges
Straight to your heart
And all of this distance won't keep us apart
Won't keep us apart

I'm building bridges
Straight to your heart
And all of this distance won't keep us apart
Won't keep us apart

I'm building bridges
(I'm building bridges)
Straight to your heart
And all of this distance won't keep us apart
Won't keep us apart

I'm building bridges
Straight to your heart
Whoa, I
Whoa I
I'm building bridges
Straight to your heart
