

Talk to Me

Nicolette Larson

I just don't know what to do
I guess that we were too good to be true
Ain't it funny?
But I always was a slave to your moods
Better tell me, did you have a motive?
Or was leading me on just your way?

Do you care
That a stranger moved into your heart?
Bet you love me
'Cause you came home so strong from the start
Are you scared that I won't be attracted
If you give in too easily?

(Talk to me) You're so cool behind a heart of stone
(Talk to me) Watch your step or you'll end up alone
(Talk to me) Come here and see what love can bring
(Talk to me) Baby, we have got the real thing
Don't you see?
Uh huh

You're a victim of attitude
Separated, no clues
Don't deny what I mean in your life
When you fall to your decadent habits
Just remember the warmth of my kiss

(Talk to me) You're so cool behind a heart of stone
(Talk to me) Watch your step or you'll end up alone
(Talk to me) Come here and see what love can bring
(Talk to me) Baby, we have got the real thing

Don't you see?
What we have is more than we need
Talk to me
Before those empty hearts just leave you to bleed
Can't you see, you don't have to be lonely
Just remember, I've been there from the start

(Talk to me) You're so cool behind a heart of stone
(Talk to me) Watch your step or you'll end up alone
(Talk to me) Come here and see what love can bring
(Talk to me) Baby, we have got the real thing
(Talk to me) You're so cool behind a heart of stone
(Talk to me) Watch your step or you'll end up alone
(Talk to me) Come here and see what love can bring
(Talk to me) Baby, we have got the real thing
