

# I Did It For Love

Night Ranger

Every night that I held you  
Made heaven from hell, yea  
I did it for love

Like the change of the season  
You grew cold for that reason  
I did it for love

And when it all went wrong  
And there's no use hanging on  
I turned and walked away

I did it, I did it, I did it for love  
Now you wanna know  
Why I let you go  
I did it for love  
Well, I thought that I was tough  
Well, I guess I'm not tough enough  
I didn't do it for the glory  
I did it for love

When you were lost in the night  
And you feared for your life  
I came running to you

And as I held you so tight  
You said forever you and I  
But girl, I knew

And now you stand and you say  
How could I walk away  
I love you too much to stay

Oh, I remember how it started  
And we felt so alive  
And the passion was burning inside  
There's a lesson in love  
When the heart grows wild

Well, I thought that I was tough  
Well, I guess I ain't tough enough

I did it for love  
Oh, Oh

I did it, I did it, I did it for love  
Now you wanna know  
Why I let you go  
I did it for love
