

# Say What You Want

Night Ranger

Heading down on the freeway  
Feeling all the heat of the sunshine  
Rolling down the window  
Singing all my favorite songs  
Only one way I get here  
Think about the meaning of something  
That's how we gonna do it  
Yeah we gonna do it right  
Right right right right right oh yeah

Say what you want but I won't go away  
I'll be around whatever you say  
Tell me a lie and I'm good for the day

All the winners keep a winning  
Losers getting ready for nothing  
Tell me tell me tell me  
Where you gonna fall in line  
Oh yeah you got a habit  
Of taking out whatever's a good thing  
Find yourself a hammer  
Smash it up and do it right  
Right right right right right oh yeah

Say what you want but I won't go away  
I'll be around whatever you say  
Tell me a lie and I'm good for the day

Telephone is ringing  
I can't stop drinking  
Here I am hanging out with nothing to do  
I don't want to hear it  
I need another hit off  
Of you yeah yeah

Well look who's backing down  
Anytime anywhere anyhow  
There's nothing left in this old town  
Yeah yeah yeah

Say what you want but I won't go away  
I'll be around whatever you say  
Tell me a lie and I'm good for the day

No I won't go away
