

Dust and Bones

Night Terrors of 1927

Oh my darling, we have fallin'
Stuck at the crossroads, skull and cross bones
Sinking down now, down to the bottom
All in the same boat, where only God knows

Everyone around us
Hold on to the promise
Can you hear the sound?
I almost hear it, now.

The world exploding, the final moment, it's
Life and death, we won't rest
Til we're dust and bones
The clock keeps turning, the world keeps burning
It's life and death, we won't rest,
Til we're dust and bones (2x)

All the lonely, lost, misshapen
Praying to be taken

Everyone around us
Holds on to the promise
Can you hear the sound?
I almost hear it, now.

The world exploding, the final moment, it's
Life and death, we won't rest
Til we're dust and bones
The clock keeps turning, the world keeps burning
It's life and death, we won't rest
Til we're dust and bones (2x)

The world exploding, the final moment, it's
Life and death, we won't rest
Til we're dust and bones
The clock keeps turning, the world keeps burning
It's life and death, we won't rest,
Til we're dust and bones.
