Master Of My Dreams

Nightfall

Deep within the world of dreams

True desires reveal their will

But tell me why can I see

No more beauty in my dreams

Master of My Dreams I don't believe you

I am an absolute dreamer

Don't go too close to such a sinner

I hear they say to children attracted by my smile

I hear they say to children in search of true lifetime

I know you know we all been drow

But have to escape before the dawn
