

My Traitor's Kiss

Nightfall

Humans, a race so bloody weak
Strange points of view that make me sick
On that cross they wear their faith all is lying
It's a confused world that's slowly dying

How many times I've felt betrayed
So many times I feel insane
I have an eye for them all, I grow strong

The traitor's kiss many missed
The beasts nobody dares to kiss
I'm just a child of this earth
That's how I got the traitor's kiss

11. PLEASURE

What I feel, what I think it is purely negative

Once you pushed me down to fall
I felt betrayed, I felt alone

It's such a pleasure to meet you here again

Since you denied me I turned out mean

And as the time goes by I see regret penetrating your mind
With your eyes downcast, crying, glad to see your gray pride's dying

So many years and a wide lake of tears
So many years for my wounds to be cured by your bloody tears

Stay away, away from me
A giver never again will be

It's such a pleasure

Since you denied me I turned out mean
I felt betrayed and still I feel

It's such a pleasure

And as the time goes by

So many years and a lake full of
