

## Bare Grace Misery

Nightwish

Sweet boy, come in  
I am the dark side of you  
Die for my sins  
Like the One once did

Cinnamon bed  
For your unashamed appetite  
A figurante

This dance will hurt like hell  
Oh, bare grace misery  
Just a child without a fairytale am I  
Dark but so lovely  
Little Match Girl freezing in the snow  
Love lying, enticing  
(Bare grace misery)  
Crowning the moment  
(Bare grace misery)

This is what I am  
Bare grace for the end of days

Romantic scent  
Spoiled Lucrece lies warm for you  
There's no such priest

That can pray me to heaven  
When done with me  
Forget if you think I feel ashamed  
A wild thing  
Never felt sorry for anything

Love lying, enticing  
(Bare grace misery)  
Crowning the moment  
(Bare grace misery)

This is what I am  
Bare grace for the end of days
