

## Come Cover Me

Nightwish

Come wet a widow`s eye  
Cover the night with your love  
Dry the rain from my beaten face  
Drink the wine the red sweet taste of mine

Come cover me with you  
For the thrill  
Till you will take me in  
Come comfort me in you  
Young love must  
Live twice only for us

For me  
For you  
Time devours passion`s beauty  
With me  
With you  
In war for the love of you  
(Tonight any dream will do)

Not a world but your fine grace  
Seduction in sleepwalker`s land  
November dressed in May on your face  
Holding us now the lovecropper`s hand

Come cover me with you  
For the thrill  
Till you will take me in  
Come comfort me in you  
Young love must  
Live twice only for us
