Nightwish

Wish upon a star
Take a step enter the land
Walk through the air
Take my hand
Wishmaster's will Join him the quest for dream
A make-believe
Is all we ever need

Wish upon a star
No matter who you are
The second star to the right
Harbinger's gate
Beyond the boundaries
Blossom ballet
In the great wide somewhere

Wish upon a star
Believe in will
The realm of the king of fantasy
The master of the tale-like lore
The way to kingdom I adore
Where the warrior's heart is pure
Where the stories will come true

A cub of the king betrayed by usurper
A girl in the rain swearing to her father's name
Belle the last sight for the dying gruesome
The beauties sleeping awaiting
Deep in a dream
For true love's first kiss

Bald Mountain Night
Devilheart endures but light
A mad aerial dance
Chernabog's succubi

Black Cauldron born Gurgi's heart forlorn Pig-keeper or hero On a quest of augury

Maleficent's fury
The spindle so luring
Dragon fight, dying night
Dooming might

Apprentice of Yen Sid Conducting the galaxy Dreamer on mountaintop Spellbound masquerade

The Sailor an idol for the six-year-old in me The Phoenix of White Agony Creek Enchantress, A mermaid in a tale as old as time A Dragonslayer, The Awakener Wish upon a star...
