

Broken Wings

Nikki Flores

[Verse 1:]

In the blink of an eye
All I believed became a lie
I need you like the air I breathe
But your love is out of reach
Out of reach
If this is where our story ends
Then show me how do I begin
I know that I will love again
How will I get through till then
Is time my only friend

[Chorus:]

I wish everything could be just like before
I'm running to the place before we fell apart
How can I move on to what tomorrow brings
Tell me how do I fly
With broken wings

[Verse 2:]

Wish I could undo the past
Just to beat the other can
Now I'm learning to believe
That the healing starts with me
Starts with me
It's like I'm not breathing anymore
But I'm starting to remember
What my heart is beating for
I know the pain won't last forever
I know that I will love again
How will I get through till then
Is time my only friend
My only friend

[Chorus: x3]

I wish everything could be just like before
I'm running to the place before we fell apart
How can I move on to what tomorrow brings
Tell me how do I fly
With broken wings
Broken wings
Broken wings
Broken wings
I wish everything could be just like before
I'm running to the place before we fell apart
How can I move on to what tomorrow brings
How do I fly
How do I fly
I wish everything could be just like before
I'm running to the place before we fell apart
How can I move on to what tomorrow brings
Tell me how do I fly
With broken wings
Broken wings
Broken wings
Broken wings
