

## City Lights

Nikki Flores

When the lights go down in the city, city, city, city  
When the lights go down in the city  
Nikki Flores, Nikki Flores  
When the lights go down in the city  
I wanna be there in my city  
Yesterday, on a plane home from Chicago  
Know I'll be waking up with you tomorrow  
I wish you could have been with me in New York  
A city so sick, a tough back to follow  
But it don't matter if I'm up in Seattle in the rain, so beautiful  
But you're not here, here  
Love it in London, UK got it running  
But it doesn't feel the same if you're not here  
'Cause I don't wanna be gone when another sun sets down on you,  
yeah  
I wanna be home in my city, listen, all I wanna see is you  
So baby  
When the lights go down in the city  
When the lights go down in the city  
All I wanna do is get next to you  
I wanna be there in my city  
With my baby  
To anybody who ain't where they got love  
So far away from the one that you dream of  
You understand what I'm saying, it's so tough  
But keep your head up, keep you, keep your, head up  
I feel the sunshine in L.A. downtown to Hollywood  
I could be walking in Memphis, just trying to forget this  
Boy, you know I would, if I could  
When the lights go down in the city  
When the lights go down in the city  
All I wanna do is get next to you  
I wanna be there in my city  
With my baby  
For anybody that love for the city say aye, aye, aye  
For anybody that love for their baby say aye, aye, aye  
When the lights go down in the city  
When the lights go down in the city  
All I wanna do is get next to you  
I wanna be there in my city  
With my baby  
All I wanna do is be next to you  
For anybody that love for the city, say aye, aye, aye  
For anybody that love for their baby say aye, aye, aye
