

## How to Love Her

Nikki Flores

I see you've been taking her places  
That you never took me  
I heard that you open her doors and  
Post her on your IG  
And I'm not even mad 'cause you turned into the man  
That I thought you should be  
But boy you came a long way yeah  
Yeah that was all me

The truth is...  
That you never knew what to do  
Till I got a hold of you  
And I know you know it's true  
You know I made you a better man  
She's reaping the benefits  
And I didn't know it then

I taught you how to love her  
I taught you how to love her  
I taught you how to touch her fuck her 'cause that's how you used to love me  
I taught you how to love her

I know you been buying her things and  
She's probably loving that life  
But I never wanted that shit I  
Only wanted your time  
If you want a girl that just wants you for the world that you're caught up in fine  
But I hope you remember yeah  
Who was there by your side

The truth is...  
That you never knew what to do  
Till I got a hold of you  
And I know you know it's true  
You know I made you a better man  
She's reaping the benefits  
And I didn't know it then

I taught you how to love her  
I taught you how to love her  
I taught you how to touch her fuck her 'cause that's how you used to love me  
I taught you how to love her
