

Married

Nikola Šarčević

Knowing you has made me recognise
Always take your lovers good advice
But love is sometimes hard to understand
It takes a lot of guts to be your man

Our love is just like an Otis song, so sore
Our love is brutal but still not gone, it's still pure

Knowing you has made me realise
After pain the sun will surely rise
If you count our distress and the blues
Then you and me don't have much to lose

Shift track If you get bored
But for now I hope you'll stay
I married you for love
I'll put the communication cord
Well before we go astray
My love I married you for love

Knowing you has made me comprehend
Losers can get lucky in the end
Knowing you is loving you with doubt
Still it's something I can't live without.
