

My Aim Is You

Nikola Šarčević

All my friends, they say
They wanna conquer the world today
They got so many dreams to catch
And many things to do

But me, I'm not the same
I only have one single aim
Yeah, only one thing's on my mind
And that is you

'Cuz all I want is to be with you
It's all I want
It doesn't really matter what we do
'Cuz all I want is to be with you

I could be sick, poor, old or blind
Don't care as long I have you around
No my condition doesn't count
As long as I'm with you

And true love is hard to find
At least the one of your kind
And to have that love
There's nothing I would not do

'Cuz all I want is to be with you
It's all I want
Hoping that you say you love me too
'Cuz all I want is to be with you

'Cuz all I want is to be with you
It's all I want
It doesn't really matter what we do
'Cuz all I want is to be with you

It's all I want, it's all I need
'Cuz all I want is to be with you
Only be with you
