My Aim Is You

Nikola Šarčević

All my friends, they say They wanna conquer the world today They got so many dreams to catch And many things to do

But me, I'm not the same I only have one single aim Yeah, only one thing's on my mind And that is you

'Cuz all I want is to be with you It's all I want It doesn't really matter what we do 'Cuz all I want is to be with you

I could be sick, poor, old or blind Don't care as long I have you around No my condition doesn't count As long as I'm with you

And true love is hard to find At least the one of your kind And to have that love There's nothing I would not do

'Cuz all I want is to be with you It's all I want Hoping that you say you love me too 'Cuz all I want is to be with you

'Cuz all I want is to be with you It's all I want It doesn't really matter what we do 'Cuz all I want is to be with you

It's all I want, it's all I need 'Cuz all I want is to be with you Only be with you
