## The Sun Hasn't Set on This Boy Yet

## **Nils Lofgren**

I dropped out of high school It bored me to death They taught me a dress code And lodged my respect I flied up to New York And learned from the plants That the sun hadn't set On this boy yet I came back an artist I tried to play a story Friends called me loser Yet envied the glory I fought for humanity I sank in the sand But the sun hasn't set On this boy yet On this boy yet Everyone just makes me strong alright Somehow when the lights went out I got myself through the night, yes I did So I went west And I found out Hope was all around me And that's what life is all about I'm back on my feet Err, with no regrets 'Cause the sun hasn't set On this boy yet No, the sun hasn't set On this boy yet The sun hasn't set on this boy yet On this boy yet
