

Valentine

Nils Lofgren

A

Today I'm thinkin' about the world we live in

F#m

All the love and hate that's floatin' around

A

All the times I felt so lost and helpless

F#m

You stood by me, you never let me down

Bm7

Still I keep throwin' up these walls

A

Most of them I've built with stones

Bm7

You tear 'em down and bridge the distance

A

Knowin' we ain't here to be alone

D

Bm7

So let your blue heart open wide

A

Let's never leave our dreams behind

Bm

It would comfort and restore my pride

A

If you let me be your valentine

D

Bm7

Our differences are part of life

A

Still love will pass the test of time

Bm

I want you everyday and night

A

Girl, won't you be my valentine

F#m

be my valentine

oh

A

Be my valentine

F#m

Be my valentine
