

Cover your Eyes with Shielded Vision
Covered in Silver, in Something New
Something you can't describe, but you
don't want to
While the world is Spinning Fast

And the Nights keep getting longer
While you drift down the Nowhere
And the Nights keep getting longer
While you drift
But there's this...

We 're picking up the Strange vibration
From the Second Star centered in the Darkness
Of 20,000 Worlds away from you baby
Gonna see you out there sometime
