

# Horses in the City

Nina Gordon

They walk the horses home at night right by my window  
They pull their carriages along busy city streets  
It's from another time it's like a lullaby  
But I don't think that I can sleep tonight

So I count the streetlights  
I count the stars  
I make a wish and wonder where you are  
I wonder if I'll live  
Long enough to feel again

Help me 'cause I'm falling out of grace  
I hang my head and hide my face  
I don't know what it is I just feel out of place  
Like horses in the city

I played the game I dropped the ball I lost another friend  
I gained a future but I can't see where the future ends  
I'd write a letter or write a song  
But once again my voice just comes out wrong  
Tonight I wonder if I'll live long enough to sing again

Help me 'cause I'm falling out of grace  
I hang my head and hide my face  
I don't know what it is I just feel out of place  
Like horses in the city  
In the city yeah hey

But they don't seem frightened  
As the cars go speeding by  
So why am I so terrified to close my eyes tonight  
I'm just afraid there's no time no time this time

They walk the horses home at night right by my window  
They pull their carriages along busy city streets  
I wonder if they'll live to run without the reins again

Help me 'cause I'm falling out of grace  
I hang my head and hide my face  
No I don't know what it is I just feel out of place  
No don't know what it is  
Know what it is  
I just feel out of place  
And don't know what it is  
Know what it is  
I just feel out of place  
Like horses in the city  
In the city yeah
