

Our Love (Will See Us Through)

Nina Simone

Anytime things go wrong
Baby we'll still get along
Cos we have each other
And our love will se us through

If some tears come our way
The sun skips a day
We still have each other
And our love will se us through

Just as long as you and I
Have a little tender kiss to share
There's no doubt at all that we'll get by
Grey skies will all turn bare

So when some clouds bring the rain
We've no cause to complain
Cos we have each other
And our love will se us through
Cos we have each other
And our love will se us through
