

## Something to Live For

Nina Simone

I want something to live for  
Someone to make my life an adventurous dream  
Oh, what wouldn't I give for  
Someone who'd take my life and make it seem  
Gay as they say it ought to be

Why can't I have love like that brought to me?  
My eye is watching the noon crowds  
Searching the promenades seeking a clue  
To the one who will someday be my  
Something to live for  
Something to live for  
Something to live for
