

# Painless

## Nine Black Alps

I took your picture  
I took your picture off the wall  
Now there's nothing.  
There's not anything at all  
And if you think that you've below me, you don't know me anymore.  
Yeah you've seen what I've been doing; yeah you've seen it all before  
And if you say I've got a sickness and there isn't any cure  
Well that's to bad,  
It's such a drag because it could be painless  
It's such a drag because it could be painless

I no you're out there  
I know you're dancing in the sun  
If you could see me, if you could see what I've become  
Because I know it can't be health, hanging on your every word  
But I can't escape the feeling that you get what you deserve.  
I can't handle being lonely  
I can't handle being burned  
It's just too bad  
It's such a drag because it could be painless
