

## Party of Three

## Ninja Sex Party

Girl, I'm gonna take you on a date tonight  
So put on your sexy dress and meet me  
In my chambers by the firelight  
This night is gonna be the best of your life

Oh yeah the mood is right  
You look more beautiful than poetry can describe  
By the way, do you mind if Ninja Brian  
Joins us he's promised not to kill anyone...oh never mind

It's a party of three  
It's just you and me  
And a psychotic ninja  
Every girl's dream

Don't make sudden movements!

Waiter: Good evening, would you like an appetizer?  
Danny: Oh, Brian!

Do you see what I mean?  
Nothing's more romantic  
Than a murder in the second degree

You'll be convinced  
Though I'm sensing you're not totally on board with this

Was it the murder thing? Yeah, i thought it might be.

Now it's after dinner and we're out at the club  
I'm grinding up against you and I'm starting to chub  
Oh you know girl, we're makin' it work  
While Brian goes completely fucking apeshit berserk

There were 300 people at this club  
Brian killed 297, so that leaves us with a

Party of three  
If human life were a keyboard  
He'd be gluing down Control-Alt-Delete

Don't make direct eye contact!

DJ: Yo I'm the DJ! Who wants to dance? AGH!!  
Danny: OK Brian, we get it.

Girl you're looking at me  
Like your feeling sick  
I'll take you home and give you vitamin P  
That stands for penis  
Nothing will come between us

Brian! Lay down a tasty bridge

Damn girl, we had such a great night  
It's a shame more bystanders couldn't have survived  
We're going back to my place where we're gonna make love

At the moment of completion I'll release a flock of doves

Let me lay the foundation of the state of our relations  
There's gonna be temptation then sensations of vibration  
Followed by the cremation of your sexual frustration  
Ending in the culmination of elation consummation

There's just one thing I think I forgot to mention  
Ninja Brian's gonna be there giving us his full attention  
Cause nothing could be hotter than our sensual embrace  
With a ninja staring at us three inches from your face

WOOOO!!!

It's a party of three  
Welcome to my kingdom of Slamalot  
You are the new queen

Please take your throne  
Together we'll rule this majestic bedroom alone  
Oh, hey Brian!

I think we all can agree  
It's time for me to plow your fields and  
Sow the seeds of a new family tree

We're young and free  
Come on, baby  
It's just you and me

...and Ninja Brian.
