

# Sadako's Wings Of Hope

Niobeth

Your smile in the mirror of time  
make me shiver,  
frighten me whole.  
Those days full of sadness  
when you still had strength  
to believe.

When it comes for you remember;  
remember to be strong,  
remember to have faith:  
believe, believe.  
When it pass you by I will sing,  
I will sing your grief,  
I will care for your tears...  
Believe, believe.

If you fold your wish  
in wings of paper  
your dreams will come true;  
this is the magic  
of faith, of believing:  
you have to trust your inner light.  
Never forget I will be watching over you.

I know this is my last night on Earth.  
I will be remembering your shiny eyes.  
Life is the dream of the  
ancient great spirit of benevolence.  
Think of me  
when your will gets weak  
and go on and on  
and never ever never ever give up.  
You have so much talent, so much beauty,  
so much goodness in your heart.

I wish to dream again.

I shall write peace upon your wings  
and you shall fly all over the world  
so that children will no longer have  
to die this way.

Step by step  
I weave my wish  
among wings of hope,  
cranes of eternal bliss.  
Redemption,  
guide me through deepest darkness.  
Salvation,  
cranes of eternal bliss

Bless the breeze, love the glow,  
save me, caress me, embrace me,  
through the gardens of my loneliness,  
write the verses of my last poem  
and love me again,  
smile for me, dream me,

take my hand, make me feel safe,  
bring me fresh water,  
beautiful flowers  
from the bloom of Spring in March.  
In March.

My soul wandering desolated  
longs for a chance to shine  
in pureness once again, save me.  
Save me,  
with love, with hope, with justice,  
with neverending faith.  
Don't tell me I cannot fight.

I will never give up,  
I'll stand before the storm.  
Feel my warmth  
and you will never have to fear.  
Always one more try,  
always one more try.  
For this night  
let us make your wish immortal.

Six-hundred-forty-four smiles  
care for you, shield you,  
protect you from the world.  
Maybe one day we all can be  
so strong as you, so pure as you.  
So peaceful and serene  
before the biggest evil,  
before human hate.  
So graceful, so intense,  
so alive and brightly-eyed.  
Walk through the stars  
with dreamy eyes, with innocence.  
Don't let human hate  
turn off the flame  
so unique in your heart.

Spread your wings and rise again  
like golden phoenix, fly away,  
earthly cursed, heavenly blessed,  
hero of this tragic story.  
Your death will not be in vain,  
your tears will fill a thousand scrolls  
overcoming hate, agony and anguish:  
your infinite courage.

Now that the ship  
sinks in the deep  
let flee you mind  
(tear demons away to shreds).  
Now that your lips  
are turning pale  
pain will pass by.

You walked the path with naked feet,  
your trace has become our guiding torch,  
winter cold embraces our solitude,  
cold night let us head north.  
Lotus blooming from dark waters,  
your immortal spirits stands  
on mani padme hum,

let us heed the wise man.

My soul wandering desolated  
longs for a chance to shine  
in pureness once again, save me.  
Save me,  
with love, with hope, with justice,  
with neverending faith.  
Don't tell me I cannot fight.

Across the universe,  
painting the stars  
as purple crystals of freedom.  
Above heavenly vault,  
beyond our reach,  
now close your eyes, dream once again.

Rest calm dear child,  
no more pain left,  
frozen tears falling.  
With silver laments calls,  
sings the swing, cries the moonlight.  
Beneath your wings of hope,  
underneath eternal sorrow,  
misty-eyed dreamer,  
angel of peace on Earth.

Smile, now you are safe at last  
shining from above,  
all will see your light fly through time.  
There, deep in our hearts, you'll live.

For hatred does not cease  
by hatred at any time;  
hatred ceases by love.  
This is the eternal law.

Sadako's wings of hope,  
most shining star,  
fly over the oceans,  
your flame will remain.

Bring calm and peace  
to wounded souls;  
keep us from rage,  
heal the good left in us.

My soul wandering desolated  
longs for a chance to shine  
in pureness once again, save me.  
Save me,  
with love, with hope, with justice,  
with neverending faith.  
Don't tell me I cannot fight.

My soul wandering desolated...

Sunrise will come,  
sunlight will draw

your glorious strength  
and kiss your tears.  
Sealed in your chest  
there's a tale of grief and pain.  
Poor moonpath, follow your fate  
with hair dancing in the air.  
Poor moonpath...

This is our cry.  
This is our prayer.  
Peace in the world.  
Repeat

Keep hope,  
we will meet beyond the edge of time.
