Nipsey Hussle

Laaaa...

Fastlane Youngstas, we fly till we die, heyyy

I said Fastlane Youngstas, fly till we die

We fly, we fly, we fly, go ahead just touch the sky with me

We high, we high, we high, go ahead just smoke some La with me

We fly, we fly, we fly, go ahead just touch the sky with me

I try to push the limits, meet me in the sky

Fastlane Youngstas, we fly or we die

We fly, we fly, we fly, go ahead just touch the sky with me

I try to push the limits, meet me in the sky

Fastlane Youngstas, we fly or we die

Look, I does my stuff, nigga that's a given

I came from nothin', look how I'm mother fuckin' livin'

It's fireplaces, flat screen televisions

But I'd trade it all back to break my brother outta prison

Wassup killer, baby bro really miss you but the champagne still poppin', duffle bag filled up

Success pays for niggas that wanna kill us

My best days is memories with my niggas

I talk money, don't I sound like the skrilla

And I'm fly till I die, my ex knows my a capella

And come to California for the women and the weather

But it ain't no tellin' what these boys don't sell ya

And last year I was considered a failure, but this year I'm gettin' money by the millions

Bitch nigga remember what I tried to tell ya, I tried to tell ya, I tried to tell ya that

We fly, we fly, we fly, go ahead just touch the sky with me

We high, we high, we high, go ahead just smoke some La with me

We fly, we fly, we fly, go ahead just touch the sky with me

I try to push the limits, meet me in the sky

Fastlane Youngstas, we fly or we die

We fly, we fly, we fly, go ahead just touch the sky with me

I try to push the limits, meet me in the sky

Fastlane Youngstas, we fly or we die

We fly till we die, fresh to the death

They hate to see us shine so we don't show 'em nothin' less

Hate to see us fly, feelin' to go 'em by jet

And put blue Gucci seats in the cockpit

Rolly on my wrist and I dome check

New CL 6, nigga that's a nice whip

I pull up on your bitch and all I say is this

You can stay where you at or you can take a trip, let's go

We fly, we fly, we fly, go ahead just touch the sky with me

We high, we high, we high, go ahead just smoke some La with me

We fly, we fly, we fly, go ahead just touch the sky with me

I try to push the limits, meet me in the sky

Fastlane Youngstas, we fly or we die

We fly, we fly, we fly, go ahead just touch the sky with me

I try to push the limits, meet me in the sky

Fastlane Youngstas, we fly or we die
