

A rainy day in a rainy town  
In this heart of mine  
In this heart of mine  
Cloud in my head, my head in a cloud  
In this heart of mine  
In this heart of mine

People say that there's no one there  
In this heart of mine  
In this heart of mine  
It's a rainy day in a rainy town  
In this heart of mine  
In this heart of mine

And I can't understand why I'm feeling this way  
I came home but my home's blown away  
There's nothing but this empty space  
In this heart of mine  
In this heart of mine  
In this heart of mine

We're all walking on a tightrope strung  
In this heart of mine  
In this heart of mine  
People say that there's no one there  
In this heart of mine  
In this heart of mine

And I can't understand why I'm feeling this way  
I came home but my home's blown away  
There's nothing but this empty space  
In this heart of mine  
In this heart of mine  
In this heart of mine  
In this heart of mine

In this heart of mine  
In this heart of mine

In this heart of mine  
In this heart of mine
