

Thing Thing

Nits

We've got this thing thing
This makes me think thing
That double you you
Ex my and why thing

The double use of wondering
Why we don't feel better
I try some more thing things
Some more of your things

I feel that some thing
That keep me warm thing
A thing called faith
A thing called love
Makes us feel better

We've got this new thing things
These me and you thing things
We've got this fly high wings
These don't know why why things
Always there
Always there
To make us feel better
Make us feel better

Make us feel things
Feel things
Feel the real
Things
