

## Think It Over

## Nits

He's a man hating his hometown  
Boys and girls back home gave him nothing  
But a natural turn-down  
In a city full of strangers  
Lived a disappointed dreamer  
A possible danger  
Use your head and try to think it over (no no no no)  
Use your head and try to think it over

I can tell behind the weak handshake  
There's a well-educated mind of a poisoning fruitcake  
Look in eyes hating and waiting for so long  
It's amazing how someone with brains like his can be so wrong  
Use your head and try to think it over (no no no no)  
Use your head and try to think it over

You must have fooled me then  
You - never were a friend  
You - never really listened to the things we said  
You - became a politician  
You - learned your dirty tricks  
You - speak in words I don't wanna understand  
You - you're waiting for the power  
You're - waiting for the hour  
You - you can spread the hate right inside your head

Think it over  
Use your head and try to think it over  
Use your head and try to think... it over

You - you must have fooled me then  
You - never were a friend  
You - never really listened to the things we said  
You - became a politician  
You - learned your dirty tricks  
You - speak in words I don't wanna understand  
You - you're waiting for the power  
You're - waiting for the hour  
You - you can spread the hate right inside your head

[illegible]
