

Champagne

Niykee Heaton

[Verse 1:]

Late nights, waiting

Empty, fading

I want you again,

I want to again

I'm far from sober

Won't hold me over

I can pretend,

I can pretend

If I get this just right

I could lay here all night

Is it too much?

One cup,

Tryna fill up

The spaces you left in me

[Pre-Chorus:]

I got all these, brand new addictions

I'm bound to,

I'm bound to

Anything that, stops me from thinking

About you,

About you

[Chorus x2:]

I got champagne for the pain,

Blackout all the memories

Runnin' through my veins,
I don't really wanna feel anything
Tryin' to escape,
I'm my only enemy
Drinks up, keep 'em laced
I don't really wanna feel anything

I don't really wanna feel anything

[Verse 2:]

Touch me, and I'm
Back to the first time
Chasing your high,
Tracing the lines
You left me, stranded,
Broken, abandoned
Live for the high,
I live for your fight

If I get this just right,
I could lay here all night
Is it too late?
I'm so afraid
Poison, I need a drink
To spite you, will you
Ravage me?

[Pre-Chorus:]

I got all these, brand new addictions
I'm bound to,
I'm bound to

Anything that, stops me from thinking

About you,

About you

[Chorus x2:]

I got champagne for the pain,

Blackout all the memories

Runnin' through my veins,

I don't really wanna feel anything

Tryin' to escape,

I'm my only enemy

Drinks up, keep 'em laced

I don't really wanna feel anything

I don't really wanna feel anything

[Pre-Bridge:]

Nu-nu-nu-numb the pain

I don't really wanna feel anything

Nu-nu-numb the pain

I don't really wanna feel anything

[Bridge:]

Racin' through my mind and I think it's the last time,

Lips as sweet as wine, so I drink just to pass time

Make me come alive, take me high, and I can't lie

I just wanna hide the pain

[Chorus x2:]

I got champagne for the pain,

Blackout all the memories

Runnin' through my veins,
I don't really wanna feel anything
Tryin' to escape,
I'm my only enemy
Drinks up, keep 'em laced
I don't really wanna feel anything

[Outro x2:]

Bring on the champagne
So I can numb the pain, numb the pain
I don't really wanna feel anything
