

Too Painful

NOA

If I were to open my eyes
And stare at the sun
The delicate brown would burn
It's too painful
Too painful
But I never never learn

If I were to go to the sea
With an open wound
The salty waves would sting
It's too painful
Too painful
But I haven't learned a thing

I haven't learned a thing
I'll never never learn
Never never never never learn...

If I were to hold on
To a high note
Until I cracked my voice
It's too painful too painful
But I know I have no choice

I know I have no choice
I'll never never learn
Never never never never learn

Still like a child
Drawn to touch the flame
Never mind, I would tell you
Never know why I do
Passion will rise above all wisdom

Still like a child
Drawn to touch the flame
Riding a roller coaster
Tell me I go too fast
Tell you - I know,
But I can't stop...
It's too painful

Never never learn...

If I were to follow my dreams
And take to the road
Would you be here when I return?
You say...

Never never learn.
