

Just Me Before We Met

Noah and the Whale

But that's just me, before we met
But that's just me, before we met

Well I've always had a wild imagination
And a see through heart
Which I know can be, a wild combination
Like a flame forms from a spark
But don't be shy, be brave little champion
It's better to live than to hide

Well that's just me, before we met
Well that's just me, before we met

But don't be shy, be brave little champion
Well that's just me, before we met
But don't be shy, be brave little champion
Well that's just me, before we met
But don't be shy, be brave little champion
Well that's just me, before we met
But don't be shy, be brave little champion
Well that's just me, before we met
But don't be shy, be brave little champion
Well that's just me, before we met
Well that's just me, before we met
Well that's just me, before we met.
