

# Good Cry

Noah Cyrus

Yeah

I've been drinking this place dry for days  
The man across the bar taught me his ways  
They tried to send me home but  
I can't be alone  
The cigarette smoke all in my space  
I can't find my old self through the haze  
I'm searching dusk to dawn  
I guess that girl is gone

I took one good look at my face, God  
Reality hits like a train  
I don't know why when I open my eyes to find

I'm hopeless, feeling so hopeless  
Honey, I drink 'til I'm sick  
This weed don't do shit  
I'm choking on my bad vibe  
Loveless, feeling so loveless  
Darling, the sky makes me sad  
The blues got me bad  
Oh, I just need a good cry

I've been up six days and five nights  
I swallowed a pill to kill the time  
I was all up in my head  
Just me, myself, and I  
This anxiety puts me to shame  
And nothing could silence is pain  
Baby, that's why, I'm saying that I am feeling so

Hopeless, I'm feeling so hopeless  
Honey, I drink 'til I'm sick  
This weed don't do shit  
I'm choking on my bad vibe  
Loveless, feeling so loveless  
Darling, the sky makes me sad  
The blues got me bad  
And I just need a good cry

Oh, I'm hopeless, yeah it's so hopeless  
Honey, I'll drink 'til I'm sick  
This weed don't do shit  
I'm choking on my bad vibe  
Loveless, I'm feeling so loveless  
Darling, the sky makes me sad  
The blues got me bad  
Oh, I just need a good cry

Darling, I'm so  
Darling, I'm so  
Darling, I'm so  
Yeah, yeah, yeah, yeah, yeah  
I just need a good cry
