

# All My Friends

Noah Gundersen

Live it up  
You and all your girlfriends  
Live it up  
Like it was a weekend

You're walking back to the table with a handful of shots  
I guess these were for someone but I guess they forgot  
Twenty-eight years just to lighten up  
Now you're closing down the bar getting high school drunk

Just dance  
Nothing lasts forever  
Just dance  
Try and relieve that pressure

There's a boy from back in high school crushing a rock  
Did a little in the bathroom and liked it a lot  
But it doesn't really hit you like you thought it might  
You're getting busy with this girl like it's Friday night

Live it up  
Go ahead and live it up  
Live it up  
It's never gonna be enough

Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)  
Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)  
Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)  
Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)

Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)  
Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)  
Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)  
Me and all of my friends gonna live forever  
(Me and all of my friends gonna live forever)

Me and all of my friends gonna live forever
