

Bang Gang

NOFX

We don't care, cause we're in a gang
Parties that we go to end up in a bang
Look at us funny and we'll shoot you dead
While we're there, we'll fill 'em with lead

Of all the gangs, we are the worst
We'll be the last, but we weren't the first
We've been in together for a year and a half
There goes our future, but we live in the past

Let's go out shoot some people tonight
We use guns, cause we don't wanna lose a fight
When we'll fight, it's 20 on 1
Cause fighting that way, is much more fun

Everyone knows that we're so bad
Our nights are long and our days are sad
Cause when we go out, someone might die
But we don't care cause we're in a gang
