How money polluted my mind

Dough, what our lives are lived for  
Rae, just a crazy Aussie  
Me, the generation forges on  
Fo-der, for corporations  
Sew-ing, our lives together  
LA such a nice place to get shot

But don't forget the "T"  
It follows "liber" in the the constitution  
Following the part about pursuit  
Of happiness the by-product  
Of colonial precious metal  
Mine extracts, which  
Brings us back to dough

Do do do do do do do  
Do do do do do do do  
Do do do do do do do

Today I saw a kid torture a cat  
Too much leisure  
Teenage Norman Rockwell  
Paints it black!

How, did the chain get started  
More, is what everyone wants  
Needy, is what none of us are  
Co-operation died last night  
Ruptured bleeding heart foresight  
Me, I'm just a loo

So don't expect the best  
You won't be disappointed when you take a bite and watch  
The worm crawl back inside  
Don't believe the fairy tales of  
Million dollar happiness  
Los Angelesistic lifestyles  
{Drinking} Chardanay {over a lobster salad brunch}

Pursuit the million dollar Happiness (Do do do do do do do do)  
Pursuit the million dollar Happiness (Do do do do do do do do)  
Pursuit the million dollar Happiness (Do do do do do do do do)  
Pursuit the million dollar Happiness (Do do do do do do do do)  
Pursuit the million dollar

Happiness was killed we watched it bleed,  
Some say it died from hate,  
Some say from bleeding heart disease
