

Day To Daze

NOFX

I trusted you at least I thought I could
I tried to believe when you said
I got a better job I can pay you back real soon. No!
I don't do those drugs no more
I know my luck has changed
My lifestyle has rearranged I'm on my feet

You'll never change your ways
Living from day to daze
Why don't you fade away

I've heard all this before
When you were sleeping on my floor
You said only for a day
But as those 3 weeks passed my patience didn't last nor my food
