

Medio-Core

It's not for faking  
The music they're making  
Will leave you with a feeling of indifference  
How was the band? They were ok  
Not great. But pretty good  
They played the songs I knew they would  
Some old  
Some New  
The same formula stays true we can concur  
It's Medio-core

Sing, sing a song  
Make it simple  
So all the kids can sing along

The list keeps growing  
The melodies been stolen  
Remind me of songs sung in the 70's  
You might fool the kids  
But you don't fool me  
Have you ever heard of something called  
Averaginality  
Is it absurd  
to compost music no one's ever heard?  
Pre-dictability  
Like a bosom will comfort them  
My one true foe  
El CD

It's under powered  
The risks are all deflowered  
Spreading faster then British tooth decay  
Are we ready to rock?  
How ya'll doin tonite?  
You condescending fucks  
Make me wanna laugh and puke at the same time  
I want to speak  
This song sounds like the tune you've heard before  
Medio-core

Sing, Sing a Song  
Make it simple  
So all the kids can sing a long
