

# My Friends

NOFX

My friends  
One fine day in the middle  
of a conversation that I'd started  
I find in time that he was no friend  
and the reason he gets little doggy  
is that he stole his girlfriend  
and the thing that's scary  
he feels no sorrow,  
he said but we're still friends right?  
What a fuckin' liar,  
Oh what a liar!!

You gotta have friends, that don't betray  
Friends that don't lie, friends you can trust  
Some steal your girlfriend, some steal your money  
Laugh at it later, they think it's funny  
My friends

When you need something to fall back on  
Good Friends let you fall on them  
I can count my friends on one hand  
My friends are in the band
