

## On My Mind

NOFX

I don't think I'll ever mind  
If you ask what's on my mind  
Do you think that I am blind?  
You never know what you will find  
Do you think that this is just?  
On my mind this is a must  
On a pie this is the crust  
My mind is turning into dust  
I'm a horse you've got my reigns  
You won't stop messing with my brains  
I'm dry and hot, I hope it rains  
I'm getting on the leaving trains  
I've got to know just what you think  
It's very important to me  
Next to shit, you really stink  
Fuck reality, give me a drink
