

## One Celled Creature

NOFX

Life on a mattress in a robe,  
in a room full of emptiness

Knowledge has much better  
uses than self-pitty and superiority

Maybe you are or could be the next Hoffman,  
Mahatma, or Chomsky  
But no one will ever know

Are you saying music can't have  
a positive influence on society?

Not with shitty melody it won't.

A sum of your parts are not gonna  
change any hearts  
not with hate in your eyes

In order to lead by example you have  
to show a path to a better world,  
not a cell
