

Back To You

Noir Désir

You remain back to your land
I need your magic again
Back to you, back to you

Well, i'll be down in your soul
Is my shooting star alone?
Back to you, back to you

No fear, no crash, no boredom

Still, there's no limits around
Back to you, back to you
Back to you, back to you

Hot rain, hot rain
No pain, no pain
Always back to you
Always back to you
Always back to you
Always back to you
