Back To You

Noir Désir

You remain back to your land I need your magic again Back to you, back to you

Well, i'll be down in your soul Is my shooting star alone? Back to you, back to you

No fear, no crash, no boredom

Still, there's no limits around Back to you, back to you Back to you, back to you

Hot rain, hot rain No pain, no pain Always back to you Always back to you Always back to you Always back to you
