

Safe And Sound

Nolwenn Leroy

You tell secrets in your sleep, I will keep them safe and sound

.

I will count the sheep and you will...

Whisper my name, when you dream, I'll be waiting

And in the morning you'll wake, and your dreams will come true.

We have promises to keep, miles to go before we sleep

Waiting through the day till you...

Whisper my name, and it feels just like dreaming

But now you're here, I'm awake and my dreams have come true.

You are the one I always hoped for, it's you, it's you.

You tell secrets in your sleep, I will keep them safe and sound

Treasure every day, every night the dreams we've found.
