

# Hunt The She Beast

NoMeansNo

Laugh you asshole and try to be brave  
My God, what a strange shape  
Drooling jaws are my dmams landwape  
I am so tough and so afraid  
Give it up, get it up, give it up, get it up  
With spear, sword and blade  
With spear, sword and blade

Hunt the She Beast  
Mama bear is there, beware  
Hunt the She Beast

We got together because it was so fucking cold  
And we knew the answer wasn't in the stars  
Or in the soil, it was in blood  
In a bloody run down to the sea, in a bloody run  
Down to the sea, in a run down to the sun and the sea

H u nt the She Beast  
She bear, she bears the furies  
Hunt the She Beast

Now I own everything and I have all the answers  
Kingdom come like my father before and my son after  
And it's power that has brought me here  
Brains and power and the fear  
The fear you've got to control  
You've got to keep the women down below  
Cause them was something here before  
The fear you've got to control  
There is something down in that hole

Hunt the She Beast

And now there's nothing left to kill  
You've bent the whole world to your will  
When you reach out your mighty hand  
There's nothing left but barren sand  
You run and run and run  
But you've forgotten what you're running from  
You're flying into emptiness  
And all that's left for you is death  
Now we don't need no prophets of doorn  
We need prophets of the womb  
Deny your cruel mythology  
Your fear inspired symbology  
The circling arms of mother night  
Will craddle your small fire light  
From now on when I hunt to see  
She - what do I see?  
From now on when I hunt to see  
She - what do I see?  
A single  
Simple  
Human Being

Hunt the She Beast She bear,

she bears the futum Hunt the She Beast.
