

## Lost

NoMeansNo

Faced with several choices  
All of them wrong  
Snap out of it, I tell myself  
Stop singing that same old song  
The All Clear sounds but the streets are deserted  
We sit in shelters with out eyes averted  
I searched for your face among those who remained  
But they were  
All the Same

I wanted it all, now I find I'm lost

You screamed that I had sold you out  
That there had to be something I could do  
I'm just trying to hold on, I said  
But when you were gone what could I hold on to?  
This world is tangled deceptive and huge  
You make your choices, try to find what's true  
You got lost, that's what happened to you  
But now  
I'm lost too  
Lost

To this land I was driven, to the land of the misgiven,  
To the land of false starts, to the land of missing parts  
I wanted it all, now I find I'm lost  
Lost

I go to work everyday  
Come home and watch the news  
What chance did we have, I think  
Just us two?  
In the Occupied Zone there's nowhere to hide  
Missiles with eyes search for all who survive  
I couldn't get through at all  
Still I called und called und called  
Lost
